

you should come to Notus because there is amazing teachers, and amazing students. The teachers are all very kind and they welcome you with joy and kindness. The students will all want to be your friend, and you will feel like you are famous because every one will want to play with you. If you did come to Notus you would realise that it's small, I like that. I think that it is nice to have a small school because it isn't as hard to find your way around and your class isn't as big. another thing that you would love is the school lunch. The school lunch is so good. the lunch is not gross like in the

Movies it is great,  
you!

The other things you will love about a school is that the teachers throw great parties. All the kids love it when the teachers have birthday parties and other fun parties.

I know that if you came to Notus you would love it here.
