

Notus Elementary will be operating under a new philosophy regarding school supplies for the 2023-2024 school year. We understand that not all families can afford supplies for their students, especially when multiple students are in school. Rather than requiring school supplies provided by our families for individual students, we will be collecting donations for community use.

**Classroom/School-Wide Supplies**

These are the typical supplies that a student at each grade level will go through during the course of the year. These supplies will be collected and put into a community supply closet for use by all students to enhance learning in the classrooms. Please consider donating supplies if you are willing and/or able to support the learning of all of our Pirates.

There are a few items that are uniquely individual to each student for personal property and sanitation reasons. Each student should bring their own backpack, water bottle for use at the fill stations, and their own over-the-ear headphones. Additionally, safe footwear for activity on the playground and in PE, as well as cold-weather clothing (coats, gloves, hats, etc.) should be provided from home. If you need assistance with any of these items, please contact the front office.
