Population Compliance:
The chart to the left details the 2020 Census population of your assigned Trustee Zone. If the "% Difference" value is over 10%, then the Trustee Zones are out of compliance for equalized populations.
Missing populations from highly populated areas will decrease the average.
You can use the "Percent Difference Calculator" provided on our Form DC-1 to recalculate your variance in populations, are moved from one zone to another.
* Calculations are based upon requirements established by the Idaho State Board of Education.

Census Block Information
If you see a check mark around a census block, then that census block has populations in it and is being split by a trustee trustee zone boundary. The trustee zone boundaries should be modified to include ALL of the census block.
The census block populations are color coded to identify which trustee zone they have been assigned to.
